## **SECTION 10 ADMINISTRATIVE OVERVIEW**

### **10.100 Purpose of the Request for Proposal**

As a part of welfare reform, Congress repealed the Aid to Families with Dependent Children (AFDC) program and replaced it with a time limited welfare program entitled Temporary Assistance to Needy Families (TANF). When TANF was created under section 1931, the cash assistance program was "delinked" from Medicaid.

For many years, the cash program was the vehicle for obtaining medical coverage for many families. As the number of TANF cases declined nationwide, Congress became concerned that many low-income families were losing medical coverage as they transitioned from welfare to self-sufficiency. To assist the states in addressing this challenge, Congress established a \$500 million 1931 fund to help states improve Medicaid program enrollment and eligibility determination processes as they relate to the "delinking" of cash and medical assistance.

For a variety of reasons, even though the TANF rolls have decreased, Hawaii has not experienced a corollary significant drop in the Medicaid coverage (QUEST) program. The state continues to provide medical coverage for TANF recipients and has implemented procedures and system modifications to enable families to retain medical coverage even as TANF benefits have been terminated. Still, the state seeks to fully utilize the available 1931 delinking funding opportunity and is seeking qualified organizations to provide outreach activities to identify uninsured children who are potentially or currently eligible for medical coverage.

The purpose of this procurement is to solicit proposals for a qualified Contractor to:

- Identify uninsured children eligible for medical coverage
- Promote effective outreach strategies through the development various forms of communication media.

- Conduct and host Statewide Community Training Workshops and annual conference of public/private partnerships.

The organizations responding to this RFP must be able to provide the required services on a statewide basis. Proposals limited to a specific island or county will not be accepted.

The successful contractor must provide all staffing, office space, office equipment, travel expenses, computer hardware and software procedures required to perform the services described herein. The contractor shall be responsible for all costs of providing the required services as described in this RFP.

Offerors are advised that the entire RFP, any addenda, and the corresponding proposal shall be part of the contract with the successful Offeror.

The Department of Human Services (DHS) reserves the right to modify, amend, change, add or delete any requirements in this RFP and in the documentation library to serve the best interest of the State. If significant amendments are made to the RFP, the State will consider allowing Offerors additional time to submit their proposals.

Offerors are encouraged to read each section of the RFP thoroughly. While sections may appear similar among RFP's state purchasing agencies may add additional information as applicable. It is the responsibility of the Offeror to understand the requirements of each RFP.

## **10.200 Authority for Issuance of RFP**

This RFP is issued under the provisions of the Hawaii Revised Statutes (HRS), Chapter 103F and its administrative rules. All prospective Offerors are charged with presumptive knowledge of all requirements of the cited authorities. Submission of a valid executed proposal by any Offerors shall constitute admission of such knowledge on the part of such Offeror. Failure to comply with any requirement may result in the rejection of the proposal. DHS reserves the right to reject any or all proposals received or to cancel this RFP, according to the best interest of the State.

## **SECTION 30 BACKGROUND**

### **30.100 Medical Assistance in Hawaii**

In Hawaii, the majority of the working population and their families receive health care coverage through employer based plans, a result of the Prepaid Health Care Act of 1974. The Act mandates that employers provide medical benefits to their employees who work 20 or more hours a week. The Act is limited to medical and psychiatric benefits and does not mandate employers to provide prescription drugs, vision or dental coverage.

Medical assistance to qualified indigent, uninsured and underinsured individuals is provided through the State administered Medicaid Fee-For-Service, QUEST and QUEST-Net programs.

### **30.200 Aged, Blind and Disabled (ABD)**

The State's Medicaid Fee-For-Service program provides medical assistance to eligible individuals under Title XIX of the Social Security Act. The Medicaid Fee-For-Service program is a state administered program, which receives federal funding for approximately 50% of its expenditures. The Medicaid Fee-For-Service program is administered by the Med-QUEST Division (MQD) of DHS.

Hawaii's Medicaid Fee-For-Service program covers all mandatory Medicaid groups as well as several optional eligibility groups. Under the current Medicaid program for the aged, blind and disabled, payments are made to providers based on the service (s) rendered (fee-for-service).

As of the end of the 2003 calendar year there were approximately 39,400 recipients under the Fee-For-Service Program statewide.

### **30.300 Hawaii QUEST (QUEST)**

In its efforts to increase access to health care and control the rate of annual increases in health care expenditures, the State of

Hawaii developed Hawaii QUEST. QUEST is a statewide Medicaid demonstration project (Section 1115 waiver) that provides medical, dental, and behavioral health services through competitive managed care delivery systems. Beginning October 1, 2001, all QUEST, QUEST Net, and Medicaid Fee-For-Service recipients access dental services through a fee-for-service program which includes coordination of travel for dental-related care.

QUEST includes individuals in the:

- Temporary Assistance For Needy Families (TANF) and TANF related programs
- Foster Care
- General Assistance (GA) Program
- Former State Health Insurance Program (SHIP)

At the end of calendar year 2003, there were approximately 142,600 recipients in QUEST.

(Refer to the QUEST document in the documentation library for additional information on the program.)

### **30.400 QUEST-Net**

QUEST-Net is a program implemented on April 1, 1996, providing limited medical, dental and behavioral health services to eligible members. This program was developed primarily to serve as a safety net for persons who become ineligible for QUEST or ABD because their assets exceed the allowable retention limitations. This program also provides a safety net for current QUEST members and ABD members who qualify for QUEST or ABD but may voluntarily enroll in QUEST-Net to obtain lower out-of-pocket costs. Applicants with any type of medical coverage including Medicare, VA, or Tricare, are not eligible for QUEST-Net.

Effective January 1, 1997, certain individuals and families whose AFDC/TANF financial assistance are terminated due to increased earned income or work hours, will be allowed to enroll into the QUEST-Net program for a maximum of 12 months. Participants must meet basic eligibility criteria, have income below 300% of

the federal poverty level, and not be eligible for employer-sponsored health coverage. There is no asset test for this group. During the first 6 months, these individuals and families will not pay a premium share. During the second 6-month period, those whose income exceed 200% of the FPL will be responsible for premium share. DHS will notify the plans of changes to the members' expiration of the twelve-month eligibility.

The medical plans shall be responsible for providing all medical and behavioral health services covered under the QUEST-Net program to the members. QUEST-Net children receive the same benefit package as QUEST children and the State reimburses the medical plan the QUEST rate for each QUEST-Net child. For purposes of QUEST-Net, children include any child up to the age of 21. Individuals 21 and over in QUEST-Net are subject to limited medical and behavioral health benefits and are not eligible for enrollment into the Behavioral Health Managed plan, or other services such as case management, outreach services, and transportation. Dental benefits are the same for QUEST and QUEST-Net adults.

QUEST-Net has approximately 7,000 members.
